

Relative Performance

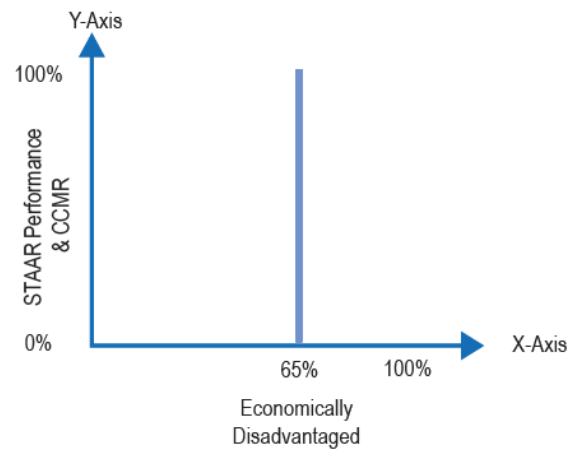

Determine the Percentage of Economically Disadvantaged Students.
Economically disadvantaged students are identified as students who qualify for free and reduced-priced lunch.

Step 1

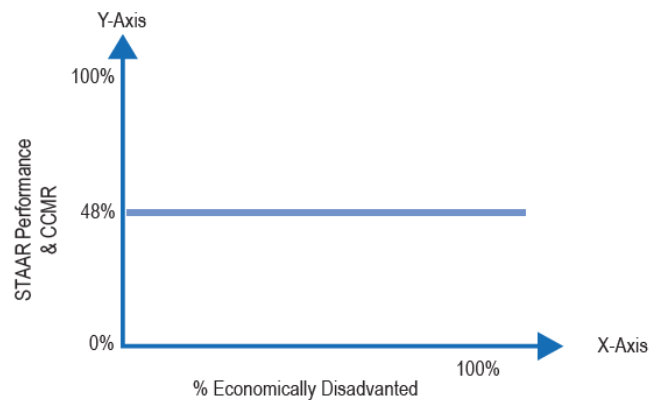

Example High School
=
65% Economically Disadvantaged

Step 2

Example High School
=
Average STAAR & CCMR Performance of 48 %

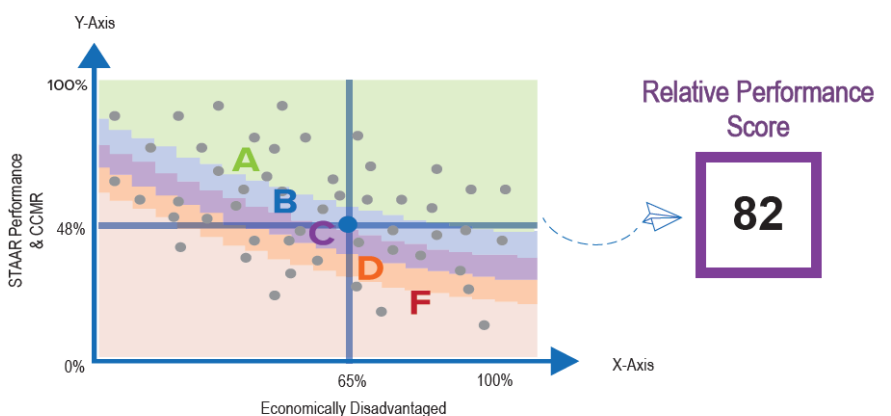

Step 3

Plot the STAAR or STAAR and CCMR Performance and the Percentage of Economically Disadvantaged Students on the Relative Performance Graph.

Where this school or district falls in relation to other Texas schools and districts with similar percentages of economically disadvantaged students determines the Relative Performance score.

- = Example High School
- = Other Texas schools
