

# School Progress

## Step 1

### Calculate the Scores for Academic Growth and Relative Performance

Click on any of the following links to see more info about how each component is calculated: Academic Growth, Relative Performance (\*Elementary and Middle Schools), Relative Performance (K-12 and High Schools)

#### Academic Growth

88

#### Relative Performance

80

\*Used in this example

## Step 2

### Determine which Score is Greater, Academic Growth or Relative Performance – the Higher Score Will Serve as the School Progress Score

#### Academic Growth

88

>

#### Relative Performance

80
