Program Description PS3014 - Program Narrative

Please include complete responses for each question below.

A. Summary of Program

1. Provide an overview of the program to be implemented with grant funds. Include the overall mission and specific needs of the organization. Describe how the Grow Your Own grant will address the LEA's teacher pipeline needs.

We currently do not have an Education and Training Career Cluster. We are beginning to offer the Program of Study for Teaching and Training and would like to begin with a cohort of 10-12 students for our inaugural year next school year, 2025-26. This Spring, when we hold our eighth-grade orientation for incoming freshmen, we will heavily promote this new pathway. We will create our cohort of students and give them their four-year plan that will be implemented through high school that will lead to them graduating with an Educational Aide I certification and the opportunity to become employees of the district during their senior year by serving in classrooms across the district. If they stay and attend a local college, they may continue their employment with our district and have the opportunity to grow into a teaching position upon graduation from college. Our overall mission is to inspire, educate, and equip high school students with the knowledge, skills, and experiences needed to pursue careers in education, fostering a diverse and dedicated future teaching workforce. This grant will assist us in providing an early exposure to education careers by introducing students to the field of teaching through hands-on experiences, mentorship, and coursework; developing future educators by providing training in pedagogy, child development, and classroom management; increase diversity in education by promoting underrepresented groups to become educators; and offer college courses.

2. Provide a list of participating districts if applying as the fiscal agent of a Shared Services Arrangement (SSA). Please confirm the fiscal agent as listed in the ADC and list the member districts. All participating agencies will enter into a written SSA agreement describing the fiscal agent and SSA member responsibilities. All participants understand that the "Shared Services Arrangement Attachment" must be completed and signed by all SSA members, and submitted to TEA before the NOGA will be released. Please enter N/A if applying on own.

B. Qualifications and Experience for Key Personnel

1. Outline the required qualifications and experience for primary project personnel and any external consultants projected to be involved in the implementation and delivery of the program. Include whether the position is existing or proposed. Include each of the following individuals and a description of each role: the LEA's grant manager, LEA leaders involved in program implementation, the campus principals, college/career counselors, and teachers of participating Education and Training high schools, and any other personnel responsible for implementation of the grant.

We would be able to utilize our current professional staff for the design and management of the project, but with grant funds we would be able to employ highly-qualified educators to implement and deliver the instructional models as well as oversee the college courses. Our project educator would be totally invested in growing our program and seeking out rewarding and relevant experiences for all of our students. The position of teaching the future educators is a proposed position that we would like to add to focus solely on growing this program. The other persons involved in the development of this program would also include (but not limited to):

LEA Grant Manager to ensure grant compliance and oversight, budget management, data collecting and reporting, stakeholder coordination, and sustainability planning. Our LEA leaders that would be involved in the program implementation would include the Superintendent, Assistant Superintendent, and our CTE Program Director. We would also have our Campus Principal and High School Counselor involved to assist in the recruitment of students and to help sustain the cohesiveness of the process.

C. Goals, Objectives and Strategies

1. Describe the major goals/objectives of the proposed program. What activities/strategies will be implemented to meet those goals/objectives? Include a description of the talent management strategy including your LEA's approach to recruiting, hiring, and retaining qualified teachers, related to those goals/objectives.

The major goal of our program is to graduate students with a Level 1 Educational Aide certification so that we can employ them in our district during their senior year as they complete their Internship, while at the same time taking the foundation Education courses through our partnering IHE to get hours towards their teaching degree. Our proposed four-year crosswalk would look like this:
 Freshman year - Take Level 1 course at high school: Principles of Education and Training
 Sophomore year - Take Level 2 course at high school: Child Development
 Junior year - Take Level three course at high school: Instructional Practices and take EDUC 2302 Teacher Education and Practice through Angelo State University (our partnering IHE).
 Senior year - Take Practicum in Education and Training as a paid internship with HISD by working in classrooms across the district. Also, take the next level EDUC course with ASU.
 Upon graduation, if the student stays local, they may continue to work with HISD as they complete their college degree in Teaching and will then be given a priority interview for a possible position with the district.
 Our talent management strategy will focus on identifying, developing, and retaining future educators. Our goal is to cultivate a strong pipeline of local teachers, so our strategy will align with attracting students to the program, supporting their development, and ensuring they transition successfully into teaching careers.

2. Please continue the response here if needed. Please enter N/A if the additional space is not needed.

Talent Identification & Recruitment:
 * Early Outreach: Engage students as early as middle school with teaching-related clubs, career fairs, and mentorship programs.
 * Targeted Recruitment: Focus on students who show an interest in leadership, mentorship, and community service.
 * Diversity & Inclusion: Prioritize recruitment of students from underrepresented backgrounds to create a more diverse future educator workforce.
Development & Training:
 * Dual Credit & College Pathways: Provide coursework that allows students to earn college credits toward an education degree.
 * Hands-on Classroom Experience: Partner with local schools for internships, tutoring, and teacher-shadowing opportunities.
 * Professional Skill Building: Offer training in classroom management, lesson planning, and educational technology.
 * Mentorship & Support: Pair students with experienced educators who guide them through their learning journey.
Retention & Transition to Teaching Careers:
 * Scholarships & Financial Support: Provide financial incentives such as tuition assistance for students who commit to returning as teachers.
 * Job Placement & Pipeline Agreements: Establish partnerships with local school districts to ensure job opportunities for program graduates.
 * Continued Support & Career Growth: Offer alumni networking, mentorship, and professional development to help new teachers succeed and stay in the field.

D. Performance and Evaluation Measures

1. Describe the performance measures identified for this program which are related to student outcomes and are consistent with the purpose of the program. Include the tools used to measure performance, as well as the processes that will be used to ensure the effectiveness of project objectives and strategies.

The performance measures we would use would include student interest, student engagement, academic progress, and program growth. We would be able to track the number of students that enroll each year and the graduation rate of those students from the program and their continuation of seeking a career in education after high school graduation. We could offer interest inventories each year to recruit new students to the program and then allow our current students to act as mentors and advisors for the new students.

G. Additional TEA Program Requirements

1. Stipend Recipient Recruitment and Selection: Referencing the Program-Specific Assurances in the Program Guidelines, describe the plan to recruit and select (1) Education and Training teachers and (2) field site teachers who are interested and eligible in participating in the program and receiving stipends. The plan must include strategies to equitably recruit diverse individuals and identify individuals with potential criteria including a demonstrated track record of success and/or achievement, involvement in student organizations and/or school activities, strong evaluation ratings, and strong relationships with students.

We plan to recruit a retired Master educator to return to the field and teach this solely course and grow this program.

2. Program Implementation Support: In addition to receiving the TEA implementation supports and coaching, describe the types of support that will be provided to Education and Training teacher stipend recipients to ensure successful implementation of the curriculum and program. The definition of successful programming should align with the major goals/objectives and performance and evaluation measures of the program. Successful implementation of the curriculum also includes, but is not limited to, the assurance that each high school campus within the participating LEA will implement at least the Instructional Practices and/or Practicum courses in the Education and Training course sequence in 2025-2026, and at least both stated courses in 2026-2027, with the teachers receiving the stipend as teachers of record for both courses or either course.

This program will be overseen by the current Assistant Superintendent and Curriculum Director as well as the current CTE Director.

3. Sustainability Plan: Describe the sustainability plan for the high school Education & Training program beyond the timeline of the grant funding. The plan should address how a high-quality program will be maintained, including clear action steps beginning in the first year of grant funding and a demonstrated ability to leverage and coordinate resources that increase your capacity to strengthen the local educator pipeline and make progress on sustainability. This may include the use of other local, state, and/or federal resources. Consider also how the program may support, integrate into, and be supported by existing LEA or EPP initiatives and/or priorities.

Because these courses and the Program of Study fall into the CTE areas of our academic structure, we will be able to generate CTE funding from the state that will help with sustaining the program for future years.
