**Initiative Specific Questions for the Texas Strategic Staffing for Residencies (TSS) Grant**

1. Enter the contact information for the school system representative appointed as the primary point of contact for all Texas Strategic Staffing for Residencies grant-related activities.

1a. Top three responsibilities in their role:

1. Design and Implement Sustainable Strategic Staffing Models 2. Recruit, Develop and Retain High Quality Teachers and Residents 3. Measure Impact, Monitor and Communicate Outcomes

1b. How often does this person meet with school system executive leadership (e.g., superintendent, assistant superintendent, chief financial officer)?

weekly

1c. How will this person help sustain paid residencies in the school system after the conclusion of this grant?

The Residency Program Lead will ensure long-term sustainability of the district’s paid teacher residency model by strategically leveraging existing resources designing cost-efficient staffing structures and aligning the residency with districtwide workforce planning. The Lead will work with campus and district leadership to reallocate existing staffing dollars—such as paraprofessional lines interventionist roles

and substitute budgets—to support paid resident positions without increasing overall costs. By implementing high-impact staffing models including resident-as-substitute and resident instructional support roles the Lead will help generate savings that can be reinvested directly into the residency program. Additionally the Lead will coordinate the use of allowable state and federal funding streams including Title I Title II IDEA and state compensatory education funds to fund resident work that supports academic intervention and student outcomes. The Lead will embed residency positions into multi-year staffing projections to ensure a predictable sustainable teacher pipeline that fills anticipated vacancies and reduces turnover-related costs. Finally the Lead will strengthen partnerships with educator preparation programs explore cost-sharing opportunities pursue complementary grants and present clear program impact data to district leadership to secure long-term budget prioritization. Through these strategies the district will maintain a financially and operationally sustainable residency program beyond the conclusion of grant funding.

1d. How will the school system support this role in the event of turnover? Who else will have knowledge and skills for this work?

In the event of turnover in the Residency Program Lead position the district will ensure continuity of implementation through a clearly defined support structure that includes both the Human Resources Director and the district Instructional Coaches. The HR Director will collaborate closely with the Residency Lead on recruitment pipelines staffing models onboarding and TEA compliance; therefore HR will maintain all program documentation recruitment processes candidate tracking and partnership agreements to ensure seamless transition of responsibilities. Additionally the district’s Instructional Coaches possess deep knowledge of mentor development resident support systems coaching structures and day-to-day implementation of residency placements. Together the HR Director and Instructional Coaches will temporarily assume shared oversight of the residency program allowing the district to maintain alignment with staffing goals mentor-resident support and grant expectations while a permanent Residency Program Lead is hired. This distributed expertise ensures that the residency program remains stable coherent and fully operational even during leadership transitions.
