1a. Top three responsibilities in their role:

1. Curriculum Development, Alignment, and Implementation The Director of Curriculum ensures that all instructional materials, programs, and resources are aligned to state standards, district goals, and evidence-based practices. This includes evaluating current curriculum, leading adoption processes, and supporting campuses with implementation to ensure consistency and rigor across all grade levels. 2. Instructional Leadership and Teacher Support A key responsibility is providing instructional leadership through professional development, coaching, and training for teachers and campus administrators. The Director of Curriculum helps educators strengthen instructional practices, use data to inform instruction, and implement effective strategies that improve student learning outcomes. 3. Data Analysis and Continuous Improvement The Director of Curriculum monitors student performance data to identify trends, instructional gaps, and areas for improvement. This role leads districtwide academic planning, sets instructional priorities, and collaborates with campus leaders to implement interventions and strategies that drive continuous improvement and support academic success for all students.

1b. How often does this person meet with school system executive leadership (e.g., superintendent, assistant superintendent, chief financial officer)?

Daily

1c. How will this person help sustain paid residencies in the school system after the conclusion of this grant?

The Director of Curriculum will play a central role in ensuring the long-term sustainability of paid teacher residencies by: Embedding the Residency Model into District Systems The Director of Curriculum will integrate the residency framework into existing instructional onboarding and staffing structures. By aligning residency roles with curriculum initiatives mentoring systems and campus improvement plans the district will institutionalize the model so it continues beyond grant funding. Building Internal Capacity Through Mentor Development The Director will strengthen the mentor-teacher pipeline by providing ongoing training coaching structures and clear expectations for mentors. As the district builds more skilled mentors internally the residency program becomes less dependent on external resources and more self-sustaining. Leveraging Data to Demonstrate Impact and Secure Local Funding Through data collection and analysis the Director will track the effectiveness of the residency program—such as teacher retention instructional quality and student outcomes. This evidence will help the district justify long-term investment and identify potential budget reallocations or partnerships to maintain paid residencies.

1d. How will the school system support this role in the event of turnover? Who else will have knowledge and skills for this work?

In the event of turnover Lamesa ISD will ensure continuity of this work through intentional cross-training documented processes and distributed leadership. The district maintains a shared-responsibility model in which key components of the residency program—including grant management curriculum alignment strategic partnerships and data reporting—are never housed with a single individual. Lamesa ISD will support this role through the following structures: Cross-Training and Shadowing Multiple central office staff including the Director of Curriculum & Instruction Federal Programs Director

and Human Resources Director
 are cross-trained in residency program requirements
 candidate support structures
 and compliance expectations. These individuals participate in planning meetings
 review timelines
 and share responsibility for monitoring program deliverables. Comprehensive Documentation All procedures
 partnership expectations
 communication templates
 and program calendars are maintained in shared district systems. This ensures a seamless transition for incoming personnel and prevents loss
 of organizational knowledge. Distributed Expertise Campus principals
 instructional coaches
 and mentor teachers receive ongoing training in residency implementation
 candidate support
 and program evaluation tools. As a result
 core knowledge is intentionally spread across campuses
 not centralized in a single role. Sustained Oversight The Superintendent’s Cabinet receives regular updates on residency goals and outcomes
 enabling multiple leaders to step in if needed. The district’s grant and compliance teams also retain shared oversight of reporting
 budgeting
 and audit readiness. Partner Institution Collaboration Lamesa ISD maintains established relationships with partner educator-preparation
 programs. These partners help provide continuity in expectations
 training
 and candidate support even during staffing transitions. Together
 these structures ensure that Lamesa ISD can maintain program stability and fidelity
 even in the event of staff turnover
 and that multiple district and campus leaders possess the knowledge
 skills
 and capacity to continue this work effectively.
