

# Welcome

Welcome to the Learning Acceleration Support Opportunities (LASO) 25-26 Cycle 4 application.

This consolidated application streamlines school system's access to grant funding, allotments, and in-kind supports and services across 15 opportunities.

## Introduction

This application includes 15 initiatives available for school systems to apply for in LASO Cycle 4.

To ensure an informed selection, please follow these steps:

- **Review Program Guidelines:** Examine the program guidelines and resources for each initiative to understand its purpose, eligibility requirements, and assurances.
- **Engage Internal Teams:** Consult with key stakeholders (e.g., board, superintendent, district leaders, campus leaders etc.) to determine which initiatives best align with your school system's needs and capacity.
- **Select Initiatives:** Identify the initiatives that best support your local priorities.
- **Complete the Application:** Submit responses only for the initiatives your school system chooses to apply for.

Review each initiative by clicking the links to its program guidelines below:

## Additional Resources and Considerations

### Additional Resources

- [Initiative One-Pagers](#): Provides school systems with a concise summary of each initiative in LASO Cycle 4.
- [Eligibility & Prioritization Matrix](#): Provides eligibility and prioritization criteria that will enable a school system to predict the likelihood of receiving an award.
- [Initiative Selection Tool](#): Provides a Scenario map to guide selection of the right fitting initiative based on need.
- [Role and Responsibilities Insight Tool](#): Identifies the types of responsibilities for each role and show where roles overlap across initiatives.

### Key Considerations for Submission

- Each school system may submit only one application. If multiple applications are submitted, only the most recent submission (based on timestamp) will be accepted.
- The application must be signed by the superintendent to be considered formally submitted. Only signed applications will be scored and considered for award. If the superintendent is unavailable to sign by the deadline, email [LASO@texas.tea.gov](mailto:LASO@texas.tea.gov) for guidance.
- School systems have 60 days to complete the application. The application opens on October 3, 2025, and must be submitted by December 3, 2025, at 5:00 PM CT.

## Leadership and Instructional Foundations for Texas (LIFT)

### Initiative Description:

LIFT (Leadership and Instructional Foundations for Texas) is a three-year program designed to support Texas school systems in building the instructional and systems-level capacity needed to deliver high-quality learning experiences for all students. LIFT brings together the highest leverage components of Strong Foundations, Texas Instructional Leadership, and Texas Lesson Study, providing comprehensive support for school systems to adopt **high-quality instructional material (HQIM)** and implement **Bluebonnet Learning (BL)** over multiple years.

Review the Eligibility Criteria and Initiative Assurances listed below and indicate the school system's acceptance.

### Eligibility Criteria:

As the applicant, the school system hereby agrees to:

- Commit to selecting and implementing a [State Board of Education \(SBOE\)](#)-approved high-quality instructional material (HQIM) in the 2027–28 school year.

OR

- Commit to implementing a Bluebonnet Learning (BL) product in the 2026–27 school year.

*Note: Participation in other grant programs does not disqualify applicants but may be considered during prioritization.*

### Initiative Assurances:

As the applicant, the school system hereby agrees to:

- Commit to (with Board approval) implementing a Bluebonnet Learning (BL) product in the 2026–27 school year (if applying to the “Implementation Phase”) OR committing to selecting and implementing a State Board of Education (SBOE)-approved high-quality instructional material (HQIM) in the 2027–28 school year (if applying to the “Planning Phase”).
- Contract with an Approved Provider from the LASO Cycle 4 State Approved Provider List for LIFT.
- Submit Approved Provider contracts and required funding summary reports to TEA.
- Secure approval from the Superintendent and Chief Academic Officer (or equivalent leader) to participate in the program.
- Appoint a designated LIFT lead as the primary point of contact and identify at least two additional contacts.  
*Note: The primary point of contact should be the equivalent of a senior academic team member or principal manager.*
- Participate in required TEA-led activities, including a grant kick-off and communities of practice.
- Engage relevant school system and campus leaders, including special programs leadership, as well as teachers, instructional coaches, and special population educators in upfront training, implementation support, and coaching.
- Participate in a needs assessment of current instructional practices and materials.
- Establish or refine systems for instructional leadership, schoolwide routines, and observation and feedback.
- Submit all required grant deliverables, including instructional framework artifacts, implementation plans, school system-level instructional materials transition plan, campus-level implementation action plans, classroom, campus, and school system-level observation data and student outcomes data and progress updates as requested by the Approved Provider or the TEA.
- Participate in TEA-administered surveys and/or focus groups, as requested.
- Use grant funds in alignment with the required allocation structure and ensuring all expenditures support the goals of the LIFT program.
- Permit Approved Providers access to campuses to provide in-person support.
- Ensure teachers have sufficient planning time and use the required protocols.
- Provide print materials for all participating teachers and students.
- Follow the year-long scope and sequence for the instructional materials.
- Meet the minimum number of instructional minutes for the instructional materials.
- Ensure that a number of instructional leaders, aligned with the school system size, will actively participate in monthly implementation support and coaching provided by the Approved Provider.
- Ensure that the school system cabinet regularly engages in data reflection/performance management routines.

1. Does the school system agree to meet the Eligibility Criteria and Initiative Assurances listed above?

- Yes
- No

## PREP Residency Preservice Program Allotment

### Allotment Opportunity:

The PREP Residency Preservice Program empowers school systems to play a central role in cultivating a pipeline of well-prepared, highly qualified teachers by embedding paid preservice teacher residency candidates directly into classrooms of highly qualified host teachers. Through close collaboration with educator preparation programs, participating school systems support teacher residents in earning an enhanced standard teaching certificate while gaining hands-on experience on campuses across the school system. By expanding the reach and effectiveness of residency models, the PREP Residency Preservice Program enhances instructional capacity and increases student access to skilled educators—ultimately advancing educational outcomes.

1. Does the school system wish to be considered for this Allotment Opportunity?

- Yes  
 No

## PREP Grow Your Own (GYO) Program Allotment

### Initiative Description:

The PREP Grow Your Own (GYO) Program enables school systems, through partnering with qualified institutions of higher education and educator preparation programs, to establish innovative staffing pipelines that prepare and retain educators and thereby, increase student access to high-quality classroom teachers. The PREP GYO program provides funding through which participating school systems support (A) school system employees who do not hold a teaching certificate in completing a bachelor's degree and enrolling in a preparation program to ultimately become a certified teacher while employed by the school system and (B) high school students in completing career and technical education courses that help prepare the students to become classroom teachers. Funding may be used to implement the PREP Grow Your Own Program and pay tuition and fees for participating students or employees.

Review the Eligibility Criteria and Initiative Assurances listed below and indicate the school system's acceptance.

### Eligibility Criteria:

As the applicant, the school system hereby agrees to:

- Any school system, which includes open-enrollment charter schools, and SB 1882 Operating Partners who read and agree to the requirements in relevant sections of the Texas Education and Texas Administrative codes cited in these guidelines is eligible for the PREP Allotment.
- School systems may participate in the PREP GYO Program only if they have been approved to participate in a partnership preservice program. For the LASO 4 application cycle, school systems must apply for and also participate in the PREP Residency Preservice Program.

### Initiative Assurances:

As the applicant, the school system hereby agrees to:

- Read and abide by TEC §21.906 (PREP Grow Your Own Program).
- Read and abide by TEC §48.157 (PREP Program Allotment).
- Read and abide by TAC sections related to the PREP Grow Your Own (GYO) Program, which will be posted to the Texas Register for

public comment during the 2025-26 school year and become effective prior to the start of the 2026-27 school year.

**Note:** TEA anticipates sharing specific dates related to rulemaking in fall 2025.

## PREP Mentorship Program Allotment

### Allotment Opportunity:

The Preparing and Retaining Educators through Partnership (PREP) Program Allotment aims to strengthen the quality of teacher recruitment, preparation, and mentorship, leading to increased educator effectiveness and retention. The PREP Program Allotment provides funding for various partnerships and school systems may apply for funding for the PREP Residency Preservice Program, Grow Your Own Program, and the Mentorship Program through this LASO IV Application. Through this allotment, school systems may also apply for Strategic Staffing funding to support the implementation and reach of the PREP Program Allotment. The 89th Texas Legislature established the PREP Program Allotment via House Bill 2, which was signed into law by Governor Abbott on June 20, 2025.

1. Does the school system wish to be considered for this Allotment Opportunity?

- Yes
- No

## PREP Mentorship Program Allotment

### Initiative Description:

The Preparing and Retaining Educators Through Partnership (PREP) Mentorship Program provides school systems interested in implementing high-quality new teacher mentorship programs with funding to 1) provide, at minimum, a \$1,000 stipend to the mentor teacher (per beginning teacher), 2) train all required school system mentorship staff via the Texas Mentorship Training, and 3) provide release time for mentor teacher and beginning teacher mentoring activities. Any remaining funds may be used on strategic staffing training. The overarching purpose of this allotment is to increase the effectiveness and retention of beginning teachers across Texas.

Review the Eligibility Criteria and Initiative Assurances listed below and indicate the school system's acceptance.

### Eligibility Criteria:

As the applicant, the school system hereby agrees to:

- Any school system, which includes open-enrollment charter schools, and SB 1882 Operating Partners who read and agree to the requirements in relevant sections of the Texas Education and Texas Administrative codes cited in these guidelines is eligible for the PREP Allotment.

7. School systems must self-report the estimated number of beginning teachers for Year 1 implementation (SY26-27). Beginning teachers (BTs) are defined as classroom teachers who have less than two years of teaching experience under TEC, §21.907. School systems will enter the total estimated number of beginning teachers below; however, school systems will receive funding for up to 40 beginning teachers.

## Pathways in Technology Early College High School (P-TECH)

### Initiative Description:

The Pathways in Technology Early College High School (P-TECH) program is an open-enrollment initiative that offers campuses an opportunity to plan to build a P-TECH within their school system. Designed to support underserved and at-risk students, P-TECH schools offer opportunities for students to earn a high school diploma while simultaneously earning industry certifications, and/or an associate degree on or before the sixth anniversary of a student's first day of high school. The P-TECH program requires a campus to maintain a partnership with an institution of higher education (IHE) to provide dual credit opportunities to the P-TECH academy students and with a business/industry partner to provide work-based learning experiences.

Review the Eligibility Criteria and Initiative Assurances listed below and indicate the school system's acceptance.

### Eligibility Criteria:

As the applicant, the school system hereby agrees to:

- As the applicant, the school system hereby agrees to serving students in Grades 9–12
  - or** will begin serving students in Grade 9
  - or** students in Grades 9 and 10 in the first year of implementation (2027-2028) and will progressively scale up by adding at least one grade level per year after the first year of implementation.
- All current P-TECH planning, provisional or designated campuses are not eligible to apply.
- All recipients of previous P-TECH Planning and Implementation or LASO Grants are ineligible to apply.
- Any campus that has been given CCRSM Needs Improvement status is not eligible to apply.

### Initiative Assurances:

As the applicant, the school system hereby agrees to:

- P-TECH campuses must establish recruitment and enrollment processes and requirements that will not exclude or discourage the enrollment of any of the subpopulations of at-risk students, including, but not limited to, students who are of limited English proficiency or who have failed a state-administered assessment.
- P-TECH campuses must provide for a TEA CTE program of study that enables a participating student in grade levels 9–12 to combine high school courses and postsecondary courses. Describe the course of study that the school is planning to offer and how it expands upon current offerings. Include how the course of study will enable a student to combine high school courses and postsecondary courses and identify crosswalks, sequences of courses, degrees/certificates/certifications earned, and work-based education that will be available to students at every grade level. Describe how the selected course of study will address regional workforce needs.
- P-TECH campuses must enter into a MOU with regional industry or business partners in Texas and must meet the following guidelines:
  - Provide 100% of participating students access to appropriate work-based education at every level.
  - Address regional workforce needs.
  - The industry/business partner will give a student who receives work-based training or education from the partner with a P-TECH first priority in interviewing for any jobs for which the student is qualified that are available upon the student's completion of the program.
  - Review the MOU at least every two years and update as necessary the name of the regional industry or business partner and describe how the proposed program will meet the requirements for the partnership with the industry/business partner.
- At TEA's request, P-TECH campuses must submit a data report of leadership team members, meeting dates, and agendas (including attendance) posted on the school's website.
- At TEA's request, P-TECH campuses must submit a data report of enrollment guidelines that follow the enrollment requirements outlined in the statutory requirements of this grant. Enrollment Guidelines should clearly document enrollment policies and practices to include admissions policies of performance-blind, open access systems that encourage and consider applications from all students, or a weighted lottery that factors 10 students who are at-risk as defined by the PEIMS (TEC §29.081) or who are part of the targeted subpopulations for P-TECH.
- At TEA's request, P-TECH campuses must submit a recruitment plan that includes marketing materials (in English/Spanish) and timelines.
- At TEA's request, P-TECH campuses must submit a data report of stakeholder input methods used to obtain input about the implementation of the program from students, parents, community, postsecondary partners, with regular activities to educate students, parents, counselors, community, district staff, and school board members.
- At TEA's request, P-TECH campuses must submit an academic year signed and dated memorandum of understanding (MOU) and course articulation agreement with one or more college partners that fulfills the statutory requirements of this grant. The agreement must address curriculum alignment, instructional material, instructional calendar, courses of study that lead to an associate degree or up to 60 hours of college credit toward a baccalaureate degree, student enrollment and attendance, grading periods and policies, administration of statewide assessments, and data-sharing policies and procedures.
- At TEA's request, P-TECH campuses must submit a plan of wrap-around strategies and services to provide academic, behavioral, and mental health supports for student success to include a plan for academic mentoring of faculty and student supports for intervention and acceleration, counseling, guidance, and student advisory services for academic, and mental health supports, and behavioral and mental health supports such as parent outreach, connections to social services when needed, and peer mentoring.
- The applicant agrees to complete and submit the required CCRSM planning application prior to the beginning of the next school year.

## Virtual and Hybrid Program Accelerator (VHPA)

### Initiative Description:

The Virtual and Hybrid Program Accelerator (VHPA) enables school systems and open-enrollment charter schools to design and launch high-quality virtual and hybrid programs or campuses, as defined under Texas Education Code (TEC) Chapter 30B. The goal of the program is to establish schools that are intentionally structured to achieve A or B accountability ratings and deliver rigorous, engaging instruction tailored to meet the diverse needs of students across Texas. Through VHPA, participating school systems receive funding and technical assistance to develop flexible, personalized learning models that support students requiring adaptable education pathways. The program also enables school systems to implement innovative staffing strategies, expand course offerings, and increase access to high-quality instruction statewide.

Review the Eligibility Criteria, Initiative Assurances, and Initiative Requirements listed below and indicate the school system's acceptance.

### Eligibility Criteria:

As the applicant, the school system hereby agrees to:

- Have not participated in a previous VHPA cycle.

### Initiative Assurances:

As the applicant, the school system hereby agrees to:

- Program leads of awarded applicants have at least 16 hours of release time built into their weekly schedules to plan and create the virtual or hybrid program or campus.
- Ensure that the program or designated campus leader possesses relevant experience or can exhibit the competencies necessary to lead a virtual or hybrid program or campus effectively.
- Design and manage strategic initiatives that improve instructional quality and student engagement, and they are committed to building their capacity to support high-quality virtual and hybrid models.
- As part of the program commitment for Year 1 of VHPA, submit a comprehensive launch plan for a full-time virtual or hybrid program or apply for authorization to operate a virtual or hybrid campus to operate in 2027-2028 school year.

*Note: If the school system does not meet participation expectations or disengage from VHPA, they may have their membership from the VHPA terminated and forfeit any access to remaining funding.*

### Initiative Requirements:

As the applicant, the school system hereby agrees to:

- Establish a dedicated VHPA Team responsible for developing and implementing the full-time virtual or hybrid campus or program.
- Collaborate with a TEA-assigned technical assistance (TA) provider and participate in TA-supported activities such as cohort workshops, monthly coaching calls, step backs, planning sessions, or implementation deliverables.
- Ensure adaptability and dedication in program model design to align with research-based practices for high-quality virtual and hybrid models.
- By the end of Year 1 of VHPA support, launch a full-time virtual or hybrid program or apply for authorization to operate a full-time virtual or hybrid campus beginning the 2027-2028 school year.

*Note: For full-time virtual or hybrid campuses, Year 2 of VHPA TA support and funds are contingent upon the full-time virtual or hybrid campus receiving authorization.*

- Ensure that any partnership with a private or third-party vendor preserves the school system's ability to design, adapt, and implement the virtual or hybrid program to meet local needs.
- Disclose any vendor-imposed services, limitations that may affect program flexibility, instructional design, or operational decision-making.
- If selecting a private or third-party provider to operate the school, collaborate with the designated technical assistance partner to develop a comprehensive provider selection plan that includes:
  - Defined criteria for evaluating potential providers.
  - Detailed cost analysis and breakdown of services.

- Consideration of the provider’s historical performance (e.g., student academic outcomes).
- If selecting a private or third-party provider to operate the program or campus, formalize and monitor the partnership with a third-party provider by:
  - Submitting memoranda of understanding (MOU) or formal agreements outlining responsibilities of both the provider and the school system or charter.
  - Establishing a system for progress monitoring, including required reports on student engagement and academic progress.
  - Defining action items if the provider fails to meet success criteria for the campus or program.
- Complete all required deliverables and meeting milestones by the scheduled timeline specified by the VHPA, including:
  - Define a clear and compelling rationale for launching the virtual or hybrid program/campus, including the specific student population or campus it will serve.
  - Present evidence of community interest in a virtual or hybrid learning option, including data collected through surveys, focus groups, or other engagement methods.
  - Develop and implement comprehensive plans to achieve program objectives, including an academic plan that outlines curriculum, instructional methods, approaches for monitoring student progress, and support strategies for special populations and at-risk students.
  - Develop and iterate plans regarding staffing models, school culture, family engagement, and student support.
  - Update operations such as staffing, schedules, finances, technology, and cybersecurity to support virtual or hybrid models.
  - Provide a professional development plan for instructional staff that includes training specific to virtual and hybrid instruction, along with ongoing, job-embedded coaching to strengthen instructional quality and student engagement.
  - Present evidence of training and development for teachers and leaders to ensure high-quality virtual or hybrid instruction.
  - Use data to monitor student engagement and academic progress, ensuring alignment with grade-level standards and research-based instructional strategies specific to virtual and hybrid learning.
  - Engage in three improvement cycle sessions using data to inform ongoing development. school systems will share data that reflects program implementation and outcomes. This may include student engagement, progress toward grade-level mastery in virtual and hybrid courses (BOY, MOY, EOY), teacher instructional practices and growth in serving virtual and hybrid learners, and leader support for professional learning communities and job-embedded coaching.
  - Obtain formal approval from the school system’s governing board to launch a virtual or hybrid program/campus and ensure this approval is secured prior to applying for authorization. For virtual/hybrid campuses, ensure this approval is secured prior to applying for authorization.
  - Submit a detailed plan or contract outlining the scope of services, responsibilities, and decision-making authority in any private or third-party vendor partnership supporting the virtual or hybrid program/campus (*if applicable*).
  - Submit a comprehensive launch plan and either implement a virtual or hybrid program or apply for authorization to operate a virtual or hybrid campus that is expected to begin operating in the 2027-2028 school year.

1. Does the school system agree to meet the Eligibility Criteria, Initiative Assurances, and Initiative Requirements listed above?

- Yes  
 No

4. What type of program is the school system planning on opening?

- Virtual
- Hybrid
- TBD

5. How does the school system envision instructions to delivered in the program?

- Asynchronous only
- Synchronous only
- Both asynchronous and synchronous
- Undecided

6. Will the school system be in Year 1 of the school system wide adoption of HQIM in core subjects?

- Yes
- No

7. Current or anticipated student enrollment number in the virtual/hybrid program or campus?

100

8. Describe how the school system calculated the enrollment number above.

*(i.e. current number of students enrolled, number of interested students via family survey)*

Legacy the School of Sport Sciences calculated the projected enrollment for the Virtual and Hybrid Program using multiple data sources that reflect both current participation and demonstrated demand. First we reviewed current enrollment records for students who are participating in flexible instructional models including remote coursework for student-athletes who travel medically fragile students and students enrolled in credit recovery or acceleration coursework. This existing group represents 84 actively enrolled students currently accessing hybrid or virtual instructional support. Second we analyzed results from the Family Interest & Support Survey distributed in January 2024 to all families in grades 6–12. A total of 217 families responded with 142 reporting interest in enrolling their student in a formalized virtual/hybrid instructional pathway if offered as an approved program option. Additionally counselor recommendation data identified 36 students flagged as at-risk due to chronic absenteeism or scheduling conflicts for whom hybrid learning is expected to significantly increase instructional access and performance outcomes. Combining current participants (84) survey-indicated interest (142) and counselor-identified eligible students (36) Legacy established an initial projected enrollment target of 100 students for the first year of implementation. This number represents

approximately 18% of total campus enrollment  
allowing for a manageable pilot launch while maintaining capacity for program growth as technology  
staffing  
and scheduling systems expand. The enrollment projection aligns to TEA expectations for realistic planning  
sustainable scale  
and capacity aligned to program readiness.

9. Which best describes where the school system is in the virtual/hybrid program?

- Are in the planning phase and currently do not have a virtual or hybrid program, but intend to launch in SY26-27.
- Have a plan and will be ready to launch a virtual/hybrid program this school year (SY26-27) with some additional support.
- Are currently running a virtual and hybrid program and would like feedback and support to build on it to launch a more robust program in SY27-28.
- Are in the planning phase and currently do not have a virtual or hybrid program but intend to apply for authorization to operate a virtual or hybrid campus in the SY27-28.
- Have a plan and will be ready to launch a virtual/hybrid program this school year (SY26-27). With some additional support, we plan to apply for authorization to operate a virtual or hybrid campus in the SY27-28.
- Are currently running a virtual and hybrid program and would like feedback and support to build on it and establish a virtual or hybrid campus in SY27-28.
- Are exploring virtual and hybrid learning options within our school system but unsure about the program type and timeline to launch.

10. Describe how your virtual or hybrid program/campus aligns with the school system's broader strategic goals or improvement plans.

Legacy the School of Sport Sciences' Virtual and Hybrid Program aligns directly with the district's broader strategic goals of expanding access  
improving academic performance  
reducing absenteeism  
and increasing college and career readiness. The VHPA model supports our long-term vision of providing flexible  
high-quality learning pathways that meet the needs of diverse student populations—including student-athletes with demanding travel and  
competition schedules  
working students  
medically fragile students  
and those requiring alternative learning environments to remain engaged and on track for graduation. The virtual/hybrid expansion is  
strategically integrated into the district's improvement plan  
which prioritizes: Academic Growth and Achievement: The virtual model leverages high-dosage tutoring  
real-time progress monitoring  
and competency-based learning to accelerate mastery and increase STAAR and EOC performance. Attendance Improvement: Flexible  
scheduling and remote participation options reduce chronic absenteeism by allowing students to remain enrolled and engaged during travel  
illness  
or family responsibilities. Career and College Readiness: Integrating virtual dual credit  
online CTE coursework  
and workforce certifications aligns with Legacy's goal that every student graduates with a postsecondary pathway. Whole-Child Support:  
Virtual wellness check-ins  
mentoring  
and social-emotional supports reduce disengagement and dropout risks. This grant will strengthen the infrastructure needed to scale a  
sustainable hybrid model  
including improved instructional technology  
teacher training  
real-time analytics tools  
and structured family communication systems. The VHPA program aligns with district goals to provide equitable access and redesign  
traditional schooling to better prepare students for flexibility  
innovation  
and independence expected in college and modern careers. By integrating VHPA into the district improvement plan  
Legacy ensures a long-term  
data-driven strategy that expands opportunity  
improves outcomes  
and supports statewide goals for learning acceleration and student success.

11. Describe what knowledge or experience the school system's leadership team brings to designing and supporting high-quality virtual or hybrid instruction.

Legacy the School of Sport Sciences' leadership team brings extensive experience in designing implementing and supporting virtual and hybrid learning models rooted in academic rigor compliance and student support. Dr. Kerrie Patterson-Brown CEO/Founder has led strategic program development and implementation for over 15 years including online learning structures during COVID-19 and flexible instructional scheduling for student-athletes ensuring alignment with TEA accountability ADA requirements and instructional integrity. Under her direction Legacy has successfully integrated platforms such as Canvas Edgenuity DMAC WebSmart and Parchment to support blended learning and real-time academic progress monitoring. Ralph Butler Chief Academic Officer brings more than 30 years of experience in instructional leadership curriculum oversight and TEKS-aligned academic systems. He has previously led campus-wide virtual learning initiatives implemented benchmark-based instructional planning and developed performance-driven monitoring routines essential for high-quality hybrid learning. Donyale Canada Chief Operating Officer manages technology infrastructure data-sharing systems and compliance needed to operate a high-quality virtual environment including device deployment network security and student accessibility planning. Her experience with NCAA-aligned academic support ensures that hybrid learning accommodates complex athletic and travel schedules. Dr. Shantel Thomas-Cato P-TECH Program Director brings experience with dual-credit online instruction college technology systems and work-based learning scheduling that mirrors hybrid instructional models. Together the leadership team has demonstrated success coordinating academic operational and student-support systems to ensure that virtual and hybrid instruction is equitable accessible and aligned with measurable academic outcomes. Their combined experience provides strong capacity to lead a scalable accountable and sustainable hybrid learning program.

12. Describe what research, data, or stakeholder input informed the school system's decision to pursue a virtual or hybrid model.

Legacy the School of Sport Sciences' decision to pursue a virtual/hybrid model was informed by multiple data sources research-based best practices and direct stakeholder feedback. Academic performance and attendance trend analyses identified a need for increased flexibility to support student-athletes working students and students managing external commitments. Internal data from DMAC and Canvas showed that students using flexible instructional time for tutoring

travel

and recovery maintained or improved academic progress when supported by structured hybrid systems. Stakeholder surveys and focus groups with students

parents

and faculty indicated strong interest in flexible learning options

with 76% of families reporting that hybrid learning would reduce stress and scheduling conflicts

and 68% of teachers noting improved engagement when students had access to asynchronous and in-person learning options. Parent feedback emphasized a desire for learning pathways that support college

career

and athletic readiness without sacrificing academic rigor. Research from TEA and national studies highlighting improved outcomes for student-athletes and nontraditional learners in hybrid models further validated the direction of the program. Additionally

feedback from community partners and postsecondary institutions indicated that hybrid learning better prepares students for real-world academic and workforce expectations. Collectively

these data points confirmed that a virtual/hybrid model would expand access

increase engagement

reduce absenteeism

and personalize learning for diverse student needs.

13. Which best describes the school system's key areas of need for the virtual/hybrid program?

*Note: Answers provided will not limit the type of support the school system will receive if accepted into the program. Instead, this information will be used to better understand the school system's key area of need.*

- Aligned, effective vision and model that is responsive to family and student needs.
- Family engagement, communication, and/or recruitment plan.
- Staffing and/or teacher/staff recruitment plan.
- Plan for communicating clear administrator, teacher, student, and family roles within a virtual/hybrid model. *(and wherever needed, support for shifting mindsets)*
- Instructional framework for designing high-quality virtual and hybrid courses aligned to research-based practices.
- Student attendance and engagement plan.
- School Culture and student well-being plan.
- Plan for supporting special populations and at-risk students.
- Student onboarding sessions, including learning strategies and support for cultivating mindsets rooted in the science of learning, self-directed learning skills, how to use digital tools, and help-seeking during asynchronous and/or synchronous instruction.
- Teacher development *(PD and ongoing job-embedded coaching)* to deliver high-quality instruction and learning experiences in a virtual/hybrid model.
- High-Quality Instructional Materials. *(for core curriculum and adjusted for virtual/hybrid learning)*
- Data collection and progress monitoring systems.
- Technology Strategy and Data Privacy Framework. *(including hardware, connectivity, digital tools, and cybersecurity policies)*
- Master schedule that is appropriately set up for virtual or hybrid learning.

14. Describe which additional topics, areas of support, or identified gaps would be most helpful to strengthen the school system's virtual or hybrid model.

To strengthen Legacy the School of Sport Sciences' virtual/hybrid model

additional support is needed in several key areas that will enhance instructional quality

student engagement

and operational sustainability. First

expanded professional development is needed to deepen teacher capacity in virtual instructional design

differentiated digital learning

and mastery-based assessment to ensure consistent high-quality delivery across all courses. Training in data-driven progress monitoring and intervention strategies will also support more targeted acceleration. Second

access to enhanced technology tools—including adaptive learning platforms

real-time analytics dashboards

and improved connectivity supports—would increase the ability to monitor student performance and provide timely intervention. Additional resources for students who need reliable internet and devices would help close digital access gaps. Third

stronger wraparound support structures

including embedded mental health services

virtual mentoring  
and flexible tutoring models  
would help address the unique social-emotional needs of hybrid learners. Increasing family engagement resources  
such as bilingual workshops and digital navigation training  
would ensure families can actively support academic progress. Finally  
structured collaboration time with successful virtual program leaders and ongoing advisory guidance from TEA or external experts would help  
refine implementation and scale best practices.

15. Describe which curriculum the school system is currently using, or planning to use for virtual learning for core courses.

Legacy the School of Sport Sciences currently utilizes Bluebonnet Curriculum for core academic instruction in Mathematics. Bluebonnet is aligned to the Texas Essential Knowledge and Skills (TEKS) and is designed to support rigorous standards-based instruction. For virtual delivery Legacy integrates Bluebonnet with Canvas LMS to provide structured modules interactive assignments pacing guides and embedded assessments that allow students to engage synchronously and asynchronously. In addition Legacy supplements core content through Edgenuity (Imagine Learning) for credit acceleration and recovery offering personalized pathways based on diagnostic assessments progress monitoring and adaptive interventions. These platforms ensure mastery-based learning and real-time data tracking for hybrid learners. The combination of Bluebonnet Canvas and Edgenuity allows Legacy to maintain consistent instructional quality across virtual hybrid and in-person environments while supporting differentiated instruction accessibility tools and flexible pacing for student-athletes working students and students requiring targeted intervention or enrichment.

16. Which content is the school system considering when adopting new instructional materials or curriculum for virtual learning? (*choose all that apply*)

*Note: Curriculum adoption is not a requirement of the program, but rather an optional support; the response to this question will help us better understand the school system's needs.*

### School System's Commitments to VHPA

As part of the VHPA, school systems will form a VHPA Team that regularly partners with VHPA technical assistance providers and meets as a central team to develop and improve the virtual/hybrid program using VHPA support.

To the best of your current understanding, provide the contact information of individuals who most likely will be on the school system's VHPA Team.
