- Hybrid
- TBD

5. How does the school system envision instructions to delivered in the program?

- Asynchronous only
- Synchronous only
- Both asynchronous and synchronous
- Undecided

6. Will the school system be in Year 1 of the school system wide adoption of HQIM in core subjects?

- Yes
- No

7. Current or anticipated student enrollment number in the virtual/hybrid program or campus?

145

8. Describe how the school system calculated the enrollment number above.

(i.e. current number of students enrolled, number of interested students via family survey)

Little Elm ISD sent out a survey to determine community interest and preferences in a potential hybrid program for students. From the survey sent to parents 256 responded with 209 stakeholders completing the question "How interested would you be in a Little Elm ISD hybrid learning option for the 2026-27 school year or beyond?." Based on the 209 responses to this question 145 indicated they would be very interested or somewhat interested in a hybrid option.

9. Which best describes where the school system is in the virtual/hybrid program?

- Are in the planning phase and currently do not have a virtual or hybrid program, but intend to launch in SY26-27.
- Have a plan and will be ready to launch a virtual/hybrid program this school year (SY26-27) with some additional support.
- Are currently running a virtual and hybrid program and would like feedback and support to build on it to launch a more robust program in SY27-28.

- Are in the planning phase and currently do not have a virtual or hybrid program but intend to apply for authorization to operate a virtual or hybrid campus in the SY27-28.
- Have a plan and will be ready to launch a virtual/hybrid program this school year (SY26-27). With some additional support, we plan to apply for authorization to operate a virtual or hybrid campus in the SY27-28.
- Are currently running a virtual and hybrid program and would like feedback and support to build on it and establish a virtual or hybrid campus in SY27-28.
- Are exploring virtual and hybrid learning options within our school system but unsure about the program type and timeline to launch.

10. Describe how your virtual or hybrid program/campus aligns with the school system's broader strategic goals or improvement plans.

Alignment with our 2030 Strategic Plan is manifested in our goals that state
 "LEISD will foster relations with community partners to enhance educational opportunities
 " "LEISD will ensure funding for teaching and learning operations
 and capital improvements to support student success at every level
 " "LEISD will engage each student staff
 and community member in learning experiences that facilitate building and maintaining respectful relationships
 " and "Curriculum and Learning will engage each student in learning experiences that lead to increased college career
 and military opportunities for post-secondary readiness." Our survey indicates that we have families seeking greater flexibility with their family time
 but would be interested in reconnecting or connecting with our school district if we could provide that for them with a virtual or hybrid program. We want to engage and include as many students and families in our school system as possible in our district.

11. Describe what knowledge or experience the school system's leadership team brings to designing and supporting high-quality virtual or hybrid instruction.

Our leaders have researched and collaborated with other districts in gaining knowledge around establishing a virtual or hybrid program. The Assistant Superintendent for Curriculum & Learning
 and the majority of the curriculum team have been trained in designing virtual learning that engages and builds community with students with training from Quality Matters or the equivalent. This enables the curriculum team to better understand how to design curriculum and support teachers in delivering high quality virtual learning.

12. Describe what research, data, or stakeholder input informed the school system's decision to pursue a virtual or hybrid model.

The survey we sent out informed that we do have parent interest in a hybrid education offering for students. Other data includes information from our PEIMS department indicating we have approximately 800-1
 000 students who live in our attendance zone that are not attending our schools. In addition
 we have students who need to work to help with their family economic situation attending our alternative campus
 that need more flexibility with their attendance hours. Establishing a hybrid program that includes options for students to work on courses outside of school hours
 while still having face to face options for classes and tutoring assistance
 would support better attendance and course completion. With our district's financial deficit budget
 receiving ADA funding for all our students would help ensure we have funding to meet the diverse needs of all our students. In addition
 in the past two months
 our principals and our leadership team have received inquiries from parents wishing for a virtual or hybrid option for their children.

13. Which best describes the school system's key areas of need for the virtual/hybrid program?

Note: Answers provided will not limit the type of support the school system will receive if accepted into the program. Instead, this information will be used to better understand the school system's key area of need.

- Aligned, effective vision and model that is responsive to family and student needs.
- Family engagement, communication, and/or recruitment plan.
- Staffing and/or teacher/staff recruitment plan.
- Plan for communicating clear administrator, teacher, student, and family roles within a virtual/hybrid model. (*and*

wherever needed, support for shifting mindsets)

- ✓ Instructional framework for designing high-quality virtual and hybrid courses aligned to research-based practices.
- ✓ Student attendance and engagement plan.
- ✓ School Culture and student well-being plan.
- ✓ Plan for supporting special populations and at-risk students.
- ✓ Student onboarding sessions, including learning strategies and support for cultivating mindsets rooted in the science of learning, self-directed learning skills, how to use digital tools, and help-seeking during asynchronous and/or synchronous instruction.
- ✓ Teacher development (*PD and ongoing job-embedded coaching*) to deliver high-quality instruction and learning experiences in a virtual/hybrid model.
- ✓ High-Quality Instructional Materials. (*for core curriculum and adjusted for virtual/hybrid learning*)
- ✓ Data collection and progress monitoring systems.
- ✓ Technology Strategy and Data Privacy Framework. (*including hardware, connectivity, digital tools, and cybersecurity policies*)
- ✓ Master schedule that is appropriately set up for virtual or hybrid learning.

14. Describe which additional topics, areas of support, or identified gaps would be most helpful to strengthen the school system's virtual or hybrid model.

Training and mentorship/coaching for the principal project manager for the hybrid learning would be an area of support and opportunities to collaborate with other principals of similar programs.

15. Describe which curriculum the school system is currently using, or planning to use for virtual learning for core courses.

We currently use the Understanding by Design methodology for our curriculum. Our core resources include Bluebonnet Learning Carnegie math (we will be in our second year of implementation)
HMH
SAVVAS
and Active Classroom. We also have iCEV and Edgenuity.

16. Which content is the school system considering when adopting new instructional materials or curriculum for virtual learning? (*choose all that apply*)

Note: Curriculum adoption is not a requirement of the program, but rather an optional support; the response to this question will help us better understand the school system's needs.

School System's Commitments to VHPA
