- Are currently running a virtual and hybrid program and would like feedback and support to build on it and establish a virtual or hybrid campus in SY27-28.
- Are exploring virtual and hybrid learning options within our school system but unsure about the program type and timeline to launch.

10. Describe how your virtual or hybrid program/campus aligns with the school system's broader strategic goals or improvement plans.

McKinney ISD's virtual and hybrid learning model directly supports the district's broader strategic goals of academic excellence equity of access flexible pathways and meeting the needs of diverse learners. The district is committed to ensuring that every student every day receives high-quality instruction tailored to their academic goals. A more robust virtual and hybrid model would expand access to courses that accelerate learning improve credit attainment and support on-time graduation. The district's improvement plans emphasize learning acceleration mastery of grade-level TEKS targeted interventions and personalized support all of which are core features of MISD's existing online programs (Original Credit Credit Recovery Focused Courses and eHigh). A unified virtual hybrid initiative strengthens MISD's ability to offer flexible scheduling multiple pathways to graduation credit recovery options and expanded access for students in alternative settings such as DAEP CRC JJAEP and Serenity.

11. Describe what knowledge or experience the school system's leadership team brings to designing and supporting high-quality virtual or hybrid instruction.

MISD's leadership team brings extensive experience in blended virtual and alternative instructional models as evidenced by the long-standing implementation of eHigh APEX-based instruction Canvas integration and district-developed master course shells. The Teaching and Learning and Technology teams have overseen online course deployment for over a decade including TEKS alignment digital resource curation and online teacher training. Campus principals counselors and content coordinators regularly manage online student placement progress monitoring

and teacher assignment for a large catalog of high school courses. The district's experience serving diverse learners—particularly at-risk credit-deficient and nontraditional students—has given MISD deep operational knowledge of attendance monitoring mastery progression digital assessment security and personalized support models. Leadership also has significant expertise in strategic planning which directly supports the transition to a scalable high-quality virtual and hybrid programs.

12. Describe what research, data, or stakeholder input informed the school system's decision to pursue a virtual or hybrid model.

MISD's decision to pursue an expanded virtual and hybrid learning model is grounded in a combination of student performance data attendance trends graduation pathway needs program evaluation findings TEKS-alignment reviews and stakeholder feedback. Student needs assessment reveals that at-risk overage and credit-deficient students benefit from self-paced online instruction and smaller flexible learning environments. Parents and students request more flexible scheduling especially for students managing work health or extracurricular commitments. Research from TEA national hybrid schooling models and blended-learning best practices showing increased student success when digital infrastructure is standardized TEKS-aligned and supported by trained staff. Together these data points made it clear that MISD would benefit from a student centered virtual and hybrid program.

13. Which best describes the school system's key areas of need for the virtual/hybrid program?

*Note: Answers provided will not limit the type of support the school system will receive if accepted into the program. Instead, this information will be used to better understand the school system's key area of need.*

- Aligned, effective vision and model that is responsive to family and student needs.
- Family engagement, communication, and/or recruitment plan.
- Staffing and/or teacher/staff recruitment plan.
- Plan for communicating clear administrator, teacher, student, and family roles within a virtual/hybrid model. *(and wherever needed, support for shifting mindsets)*
- Instructional framework for designing high-quality virtual and hybrid courses aligned to research-based practices.
- Student attendance and engagement plan.
- School Culture and student well-being plan.
- Plan for supporting special populations and at-risk students.
- Student onboarding sessions, including learning strategies and support for cultivating mindsets rooted in the science of learning, self-directed learning skills, how to use digital tools, and help-seeking during asynchronous and/or synchronous instruction.
- Teacher development *(PD and ongoing job-embedded coaching)* to deliver high-quality instruction and learning experiences in a virtual/hybrid model.
- High-Quality Instructional Materials. *(for core curriculum and adjusted for virtual/hybrid learning)*
- Data collection and progress monitoring systems.
- Technology Strategy and Data Privacy Framework. *(including hardware, connectivity, digital tools, and cybersecurity policies)*
- Master schedule that is appropriately set up for virtual or hybrid learning.

14. Describe which additional topics, areas of support, or identified gaps would be most helpful to strengthen the school system's virtual or hybrid model.

MISD has identified several areas where additional support would significantly strengthen its virtual and hybrid learning model

including standardizing program expectations across campuses and implementing secure technology tools. The district also needs a unified staffing structure and enhanced professional learning to ensure teachers are prepared for high-quality virtual and hybrid instruction along with expanded support for English learners  
SPED students  
economically disadvantaged students  
and families. Finally  
improved data dashboards and progress-monitoring tools would allow MISD to move from isolated online programs to a fully aligned districtwide virtual and hybrid learning system.

15. Describe which curriculum the school system is currently using, or planning to use for virtual learning for core courses.

Our expectation for the virtual and hybrid model blends the structure and consistency of APEX curriculum with the flexibility to incorporate district-developed and teacher-created materials  
ensuring instruction remains both rigorous and responsive to student needs. This combination allows teachers to enhance core content with performance tasks  
enrichment activities  
and targeted supports that align with essential standards and district instructional priorities. We are seeking a learning experience that is adaptable
